Profile

I'm a Computer Science graduate with practical experience in web development, focused on building efficient and scalable web applications. I aim to write clean, maintainable code and create user-friendly designs that address both business and technical needs. I enjoy working with modern technologies and continuously look for ways to solve complex problems more effectively.

Professional Experience

Junior Software Developer , <i>Simplex Software & Internet Services Ltd</i>	October 2023 – present Limassol, Cyprus
<ul style="list-style-type: none">- Sole developer responsible for building and maintaining new full-stack web applications and multiple older PHP websites (Node, React, PHP 5/7), supporting both client-facing platforms and internal tools.- Built a custom CMS that auto-generates data fields from SQL databases, intended streamline content setup.- Contributed to the company's payment platform integrated with SAP Business One, implementing JCC payment processing, user approvals and role-based access.- Supported existing hosting environments and databases (Apache, Nginx, MySQL/MariaDB, Webmin)
